

AV Guru's Lounge

Mumbai

Brands on display

- Klipsch ● Sonos ● Golden Ear
- Devialet ● Definitive Technology
- Stealth Acoustics ● Bowers & Wilkins ● Marantz ● NAD ● Oppo
- Zidoo ● BenQ ● LG ● Persang

AV Guru's Lounge solves this problem with an elegant solution where the 24x16ft room is divided into two zones with multiple different speaker set-ups that complement the two screen options. The 65in LG OLED TV is mounted on a Vogels motorised motion mount with a Golden Ear 5.1.2 speaker set-up and a massive LCR soundbar.

The Projection Zone is equipped with a 5500 Lumens BenQ LK-592 Laser 4K projector with a 100in Screenline ALR Screen and a Klipsch 5.2.2 THX Certified In Wall/In Ceiling Speaker System powered by a Marantz AV Processor and NAD Power Amplification.

When an industry veteran with almost 25 years of experience wants to dabble with something new, you can expect out-of-the-box results. That's exactly what this new lounge in the heart of Mumbai offers - a haven for architects and customers alike where you can choose from a myriad of solutions for your dream home-theatre or multiroom music set-up. The lounge doesn't have different demo rooms like you would expect to see in a high-end showroom. Instead, all the possible options are neatly and discreetly integrated within this single living-room space and the unique feature here is the first such demo space that can demo both a 4K OLED TV and a Laser 4K projector simultaneously! One of the biggest conundrums in most customers minds is whether to invest in a big-screen TV or a projection system and the pitfalls of each.
